Education

Kolhapur Institute of Technology 2025 – 2030
B.Tech in Computer Science and Engineering *Kolhapur, Maharashtra*

- First Year CGPA: **9.1/10** — Expected Graduation: **2029–30** — HSC: **81.83%** — SSC: **97%**

Technical Skills

Programming Languages: C, C++, Python
Web Technologies: HTML, CSS, JavaScript
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving
Tools: Git, GitHub, Visual Studio Code
Currently Learning: React, Artificial Intelligence and Machine Learning

Projects

MediQueue | **Hospital Queue Management System** Completed

- Developed a digital hospital queue management system focused on organizing patient flow and making queue handling more efficient.
- Designed a structured approach to patient registration and queue management to reduce confusion around patient turns.
- Focused on solving a real-world healthcare workflow problem through a simple and user-friendly digital solution.

Smart Shopping Cart Ongoing

- Designing a smart shopping solution aimed at simplifying in-store checkout through automatic item identification, billing, and real-time expense tracking.
- Exploring product verification mechanisms to improve billing accuracy and reduce manual checkout effort.
- Focused on creating a faster and more convenient shopping experience through an automated checkout workflow.

Shopping Sathi | **HTML, CSS, JavaScript** Ongoing

- Building an intelligent shopping assistant that helps users discover and compare products based on their specific needs.
- Designing personalized recommendations with transparent “Why Buy” and “Why Not” explanations to support informed purchase decisions.
- Exploring a unified product and price comparison experience across multiple shopping platforms.

Experience

Commonwealth Bank 2026
Software Engineering Job Simulation

- Completed a software engineering job simulation involving practical technical problem solving and industry-style workflows.
- Gained exposure to structured software engineering tasks, development practices, and professional problem-solving approaches.

Hackathons & Leadership

TenzorX Hackathon | **Participant**

- Participated in a technical hackathon involving problem analysis, solution ideation, teamwork, and rapid solution development.

Smart India Hackathon (SIH) | **Participant**

- Participated in SIH and explored technology-driven approaches to solving real-world problem statements through teamwork.

Pioneer 2026 | **Volunteer** National Level Event

- Supported event coordination and organizational activities, strengthening teamwork, communication, and coordination skills.
